Hometown Hero Banners

Frequently Asked Questions

General Information

Hometown Hero banners can be ordered by municipalities or veteran organizations for many occasions. Whether you'd like to honor your town's past & present members of the armed forces, police officers, firefighters, EMTs, or other service members, we want to help!

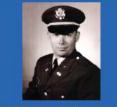

Some customers have ordered these banners for fundraising efforts, allowing families and local businesses to sponsor their loved ones on the final product. It's a phenomenal way to raise money, serve the community, improve curb appeal, and respect those who have given so much to their fellow Americans.

Product Information

Our most common banner sizes are 24x48" and 30x60". While your Hometown Hero banners can be any height, they must be either 18, 24, 30, or 36 inches wide. We also sell aluminum mounting brackets with epoxied white fiberglass arms. Silver brackets are standard, while black brackets are meant for decorative poles.

While all product pricing is based on quantity, banner pricing is <u>all-inclusive</u>, meaning there are no hidden or additional art fees!

What We Offer

STEAMFITTERS 475 LOCAL HERO

JAMES W. LOUNSBURY OPERATION IRAQI FREEDOM U.S. ARMY MARCH 1994 - NOVEMBER 2014

All of our graphic design work is done in-house. We will create custom banner backgrounds, layouts, and submission forms so you can promote the program to your town's residents. Most importantly though, we make it a priority to Photoshop <u>every</u> single image to ensure your heroes look their best on the final product.

As many custom banners are seasonal, we also install, remove, and store banners year-round for anyone who wishes for us to do so.

Where to Go From Here

The next step in getting your Hometown Hero banners is to promote! Reach out to your town's residents online and in local newspapers to spread awareness.

From there, we are happy to help you gather the necessary information from your residents via a custom submission form. Banners should always display the hero's name, his or her photo, and the branch they served in. We also recommend displaying their years of service and their rank, as well as prestigious medals like the Purple Heart and Bronze or Silver Stars. We also denote veterans who were POWs, MIA, or KIA (killed in action) with special graphics.

From inspiration to installation, we look forward to working with you every step of the way!
